Our commitment

Responsible Educational Travel for Student Groups

With over 30 years of experience, we design academic and cultural immersion programs grounded in high standards of safety, support, and educational quality.

We collaborate with carefully selected host families, communities, guides, and local specialists to deliver meaningful and well-supported experiences for each institution.

Program pillars

Cultural and Linguistic Immersion

Homestay, Spanish in real-life contexts, and everyday life.

Mayan Heritage and Archaeology

Chichén Itzá, the Puuc Route, Calakmul, Cobá, and Tulum.

Living Communities and Experiential Learning

Tekit, Becal, Mayan cuisine, and community engagement.

Nature, Territory and Conservation

Cenotes, jungle landscapes, and marine ecosystems.

Program

Day 1: Arrival in Mérida

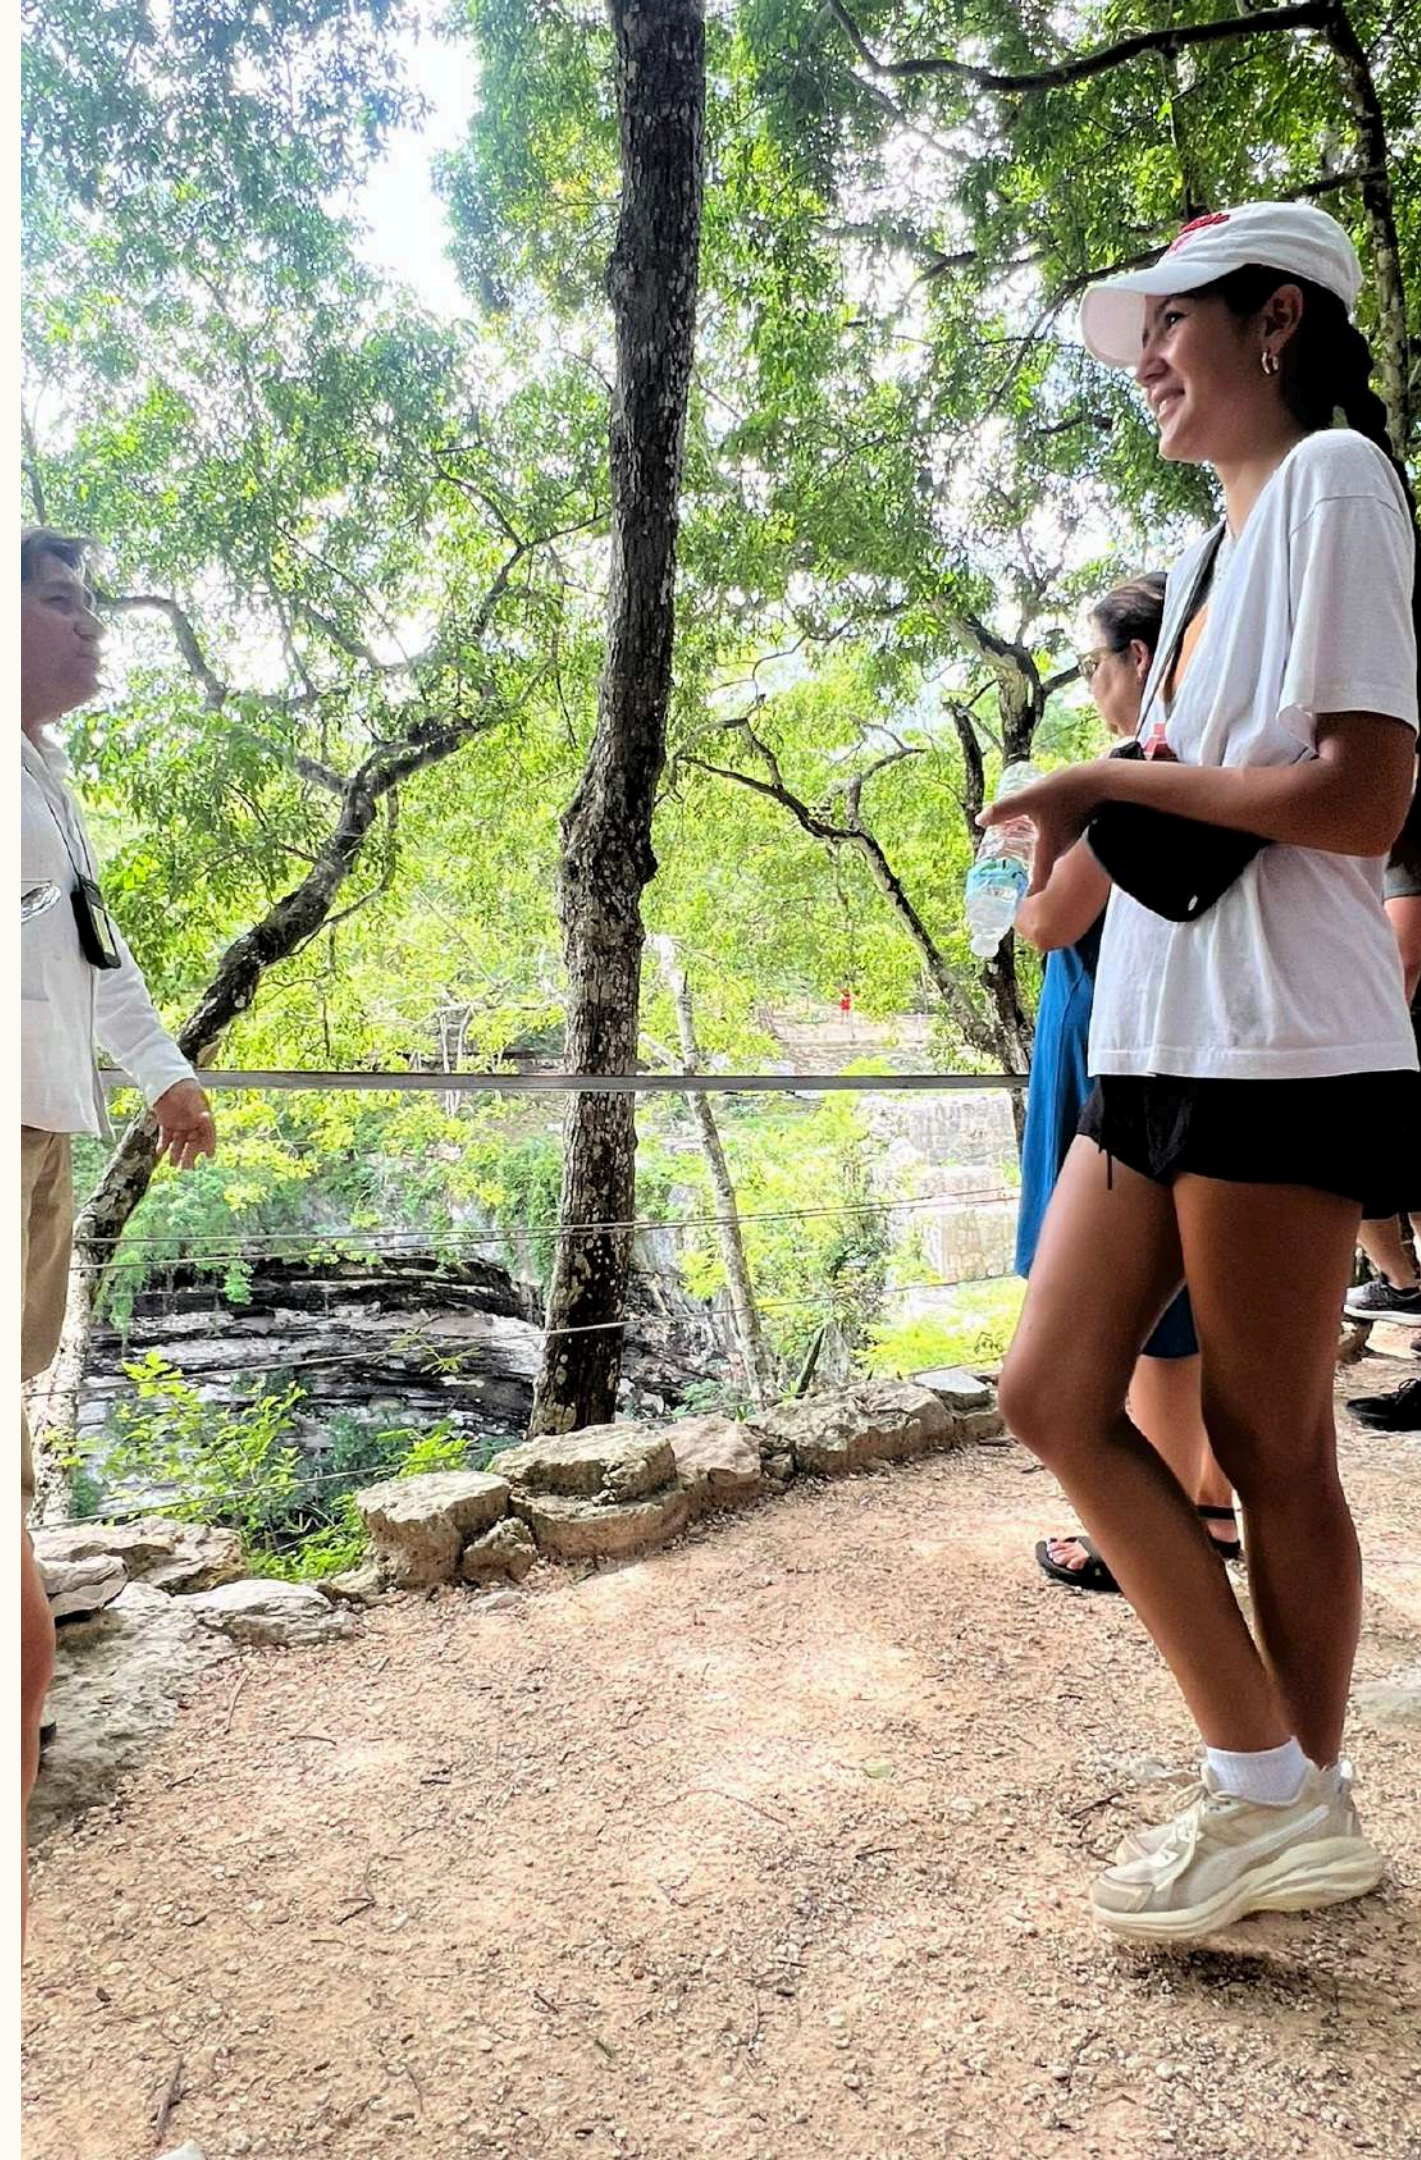

Arrival in Mérida. Welcome to the program and integration with host families

Day 2. Mérida: history, community, and local life

Guided exploration of Mérida's historic center to understand its colonial heritage, architecture, and cultural life. Volunteer activity with a local community organization. Time with host families.

Day 3. Chichén Itzá and Valladolid: Mayan heritage and living city

Visit to Chichén Itzá to explore the historical and symbolic legacy of the Mayan civilization. Continue to Valladolid to engage with its history, architecture, and living traditions.

Program

Day 4. Cenotes and territory: nature and worldview

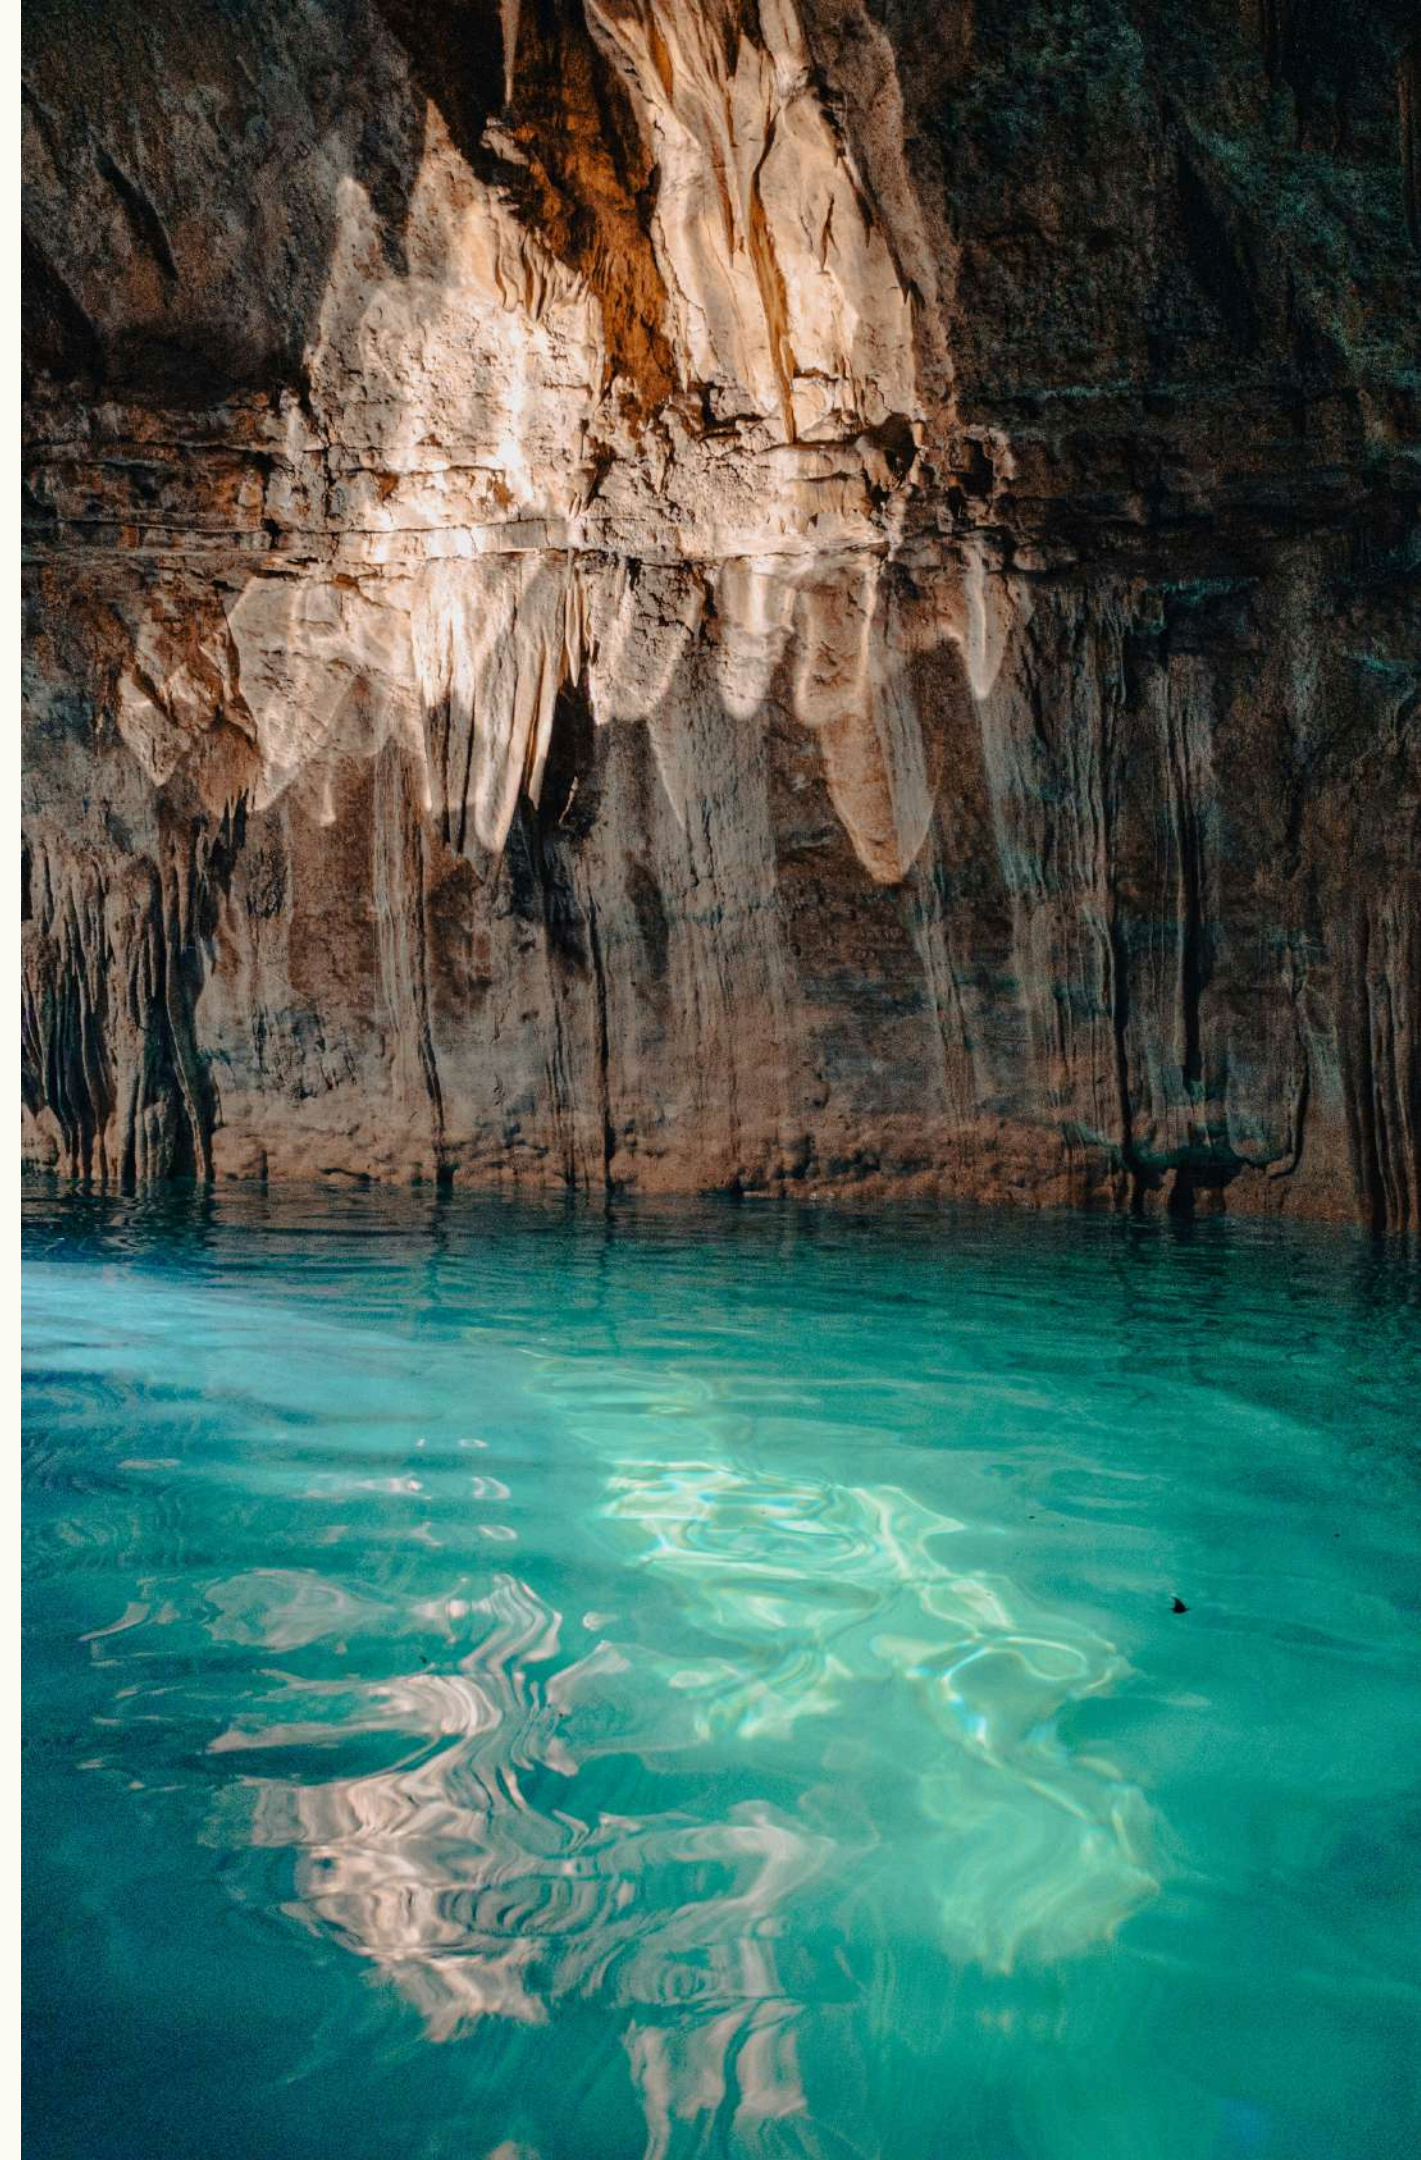

Exploration of regional cenotes. Experience focused on understanding the relationship between landscape, community, and local culture through direct contact with the natural environment.

Day 5: Language and cultural immersion

Immersion experience at a Spanish language school, combining language classes with cultural activities. Group interaction and closing activity.

Day 6: Uxmal and the Puuc Route

Exploration of Uxmal and sites along the Puuc Route to understand the architecture, urban planning, and complexity of the Mayan world.

Program

Day 7. Santa Elena: traditional cuisine and Maya community

Community-based experience focused on traditional cuisine, local ingredients, and knowledge passed down through culinary practices and daily life.

Day 8. Hacienda Sotuta de Peón and the henequen legacy

Visit to a historic hacienda to understand the legacy of henequen and its role in the social and economic history of Yucatán. The experience integrates landscape, production processes, and living heritage.

Day 9. Tekit: living traditions and community heritage

Encounter with living traditions through embroidery, traditional bread-making, and melipona beekeeping, exploring the cultural value of local crafts.

Program

Day 10: Becal and the art of jipijapa weaving

Visita a la comunidad de Becal para conocer procesos artesanales vinculados al tejido del jipijapa y comprender el patrimonio vivo ligado a identidad y territorio.

Day 11. Calakmul: Mayan world, jungle, and conservation

Exploration of Calakmul, one of the great centers of the Mayan world, understanding its historical significance and its relationship with the surrounding rainforest. The experience introduces the biosphere as a biocultural landscape where heritage, biodiversity, and conservation converge.

Day 12. Campeche: walled city and colonial history

Exploration of Campeche's historic center to understand another dimension of regional heritage, through colonial architecture, maritime history, and cultural identity.

Program

Day 13: Cobá, Tulum, and the Caribbean coast

Exploration of Cobá and Tulum, connecting the inland Mayan world with Caribbean landscapes and understanding the relationship between archaeological heritage, territory, and natural environment.

Day 14: Akumal and marine ecosystems

Snorkeling experience and observation of marine life in Akumal, combined with learning about conservation and coastal ecosystems. Group reflection and integration of program experiences.

Day 15: Departure

Transfer to the airport and end of the program.

This itinerary serves as a general reference. The program can be adapted in duration, academic content, and activities to meet the educational objectives and profile of each institution.
